Narrower in-spection and the sound of the voice showed that the very splendidly dressed visitor was a near neighbor, a laborer, wall-layer and mason, whose every day nig would have been dear at a silver dollar—an old skull cap, a coarse blue dollar—an old skull cap, a coarse blue cotton blouse, and loose breeches in cold weather, barefroted or shod with grass sandals, greasy, dirty and ill-conditioned as a beggar or a coolie. He had hired a suit for the occasion for a few shillings, and shone like a lord for a single day in the year, though destined to rags and a loins-cloth for the remaining three hundred and sixty-four! A SHOWER OF LIVE WORMS.

The Auburn Advertiser of Friday evening says: "We were called at an early hour this morning to examine a gargen plot covered evenly with the fast falling snow, on the surface of which were millions of living, crawling insects of about half an inch in length and of the uniform size of a darning-needle. They were of a yellowish-white color, translucent, with a dark-colored portion, of small extent, near what we judged to be the head. There were no trees near the place, and no means, by any of the processes of finite philosophy, to account for their presence. We made a second examination some forty minutes after the first, and, although over half an inch of damp, heavy snow had fallen in the interval, the living squirming things were still on the surface of the snow and alive and kicking."

WORDS OF WARNING!

During the present year, as in the past, the grave will close over thousands, simply because they neglect the means which would restore them to health.—

Meet the fell destroyer at the threshold, and dispute his invasion by that more than wonderful medicine, Dr. Morris' Syrup of Tar, Wild Cherry and Horehound. There is no cough or cold, case of asthma, bronchitis, blood-splitting, weak lungs, croup or whooping cough, which will not yield more readily to this great sortanical remedy than any other medicine. If you would avoid disappointment, and be speedily cured, ask your Druggist for Dr. Morris' Syrup of Tar, Wild Cherry and Horehound. Trial size, 10 cents. Regular sizes, 50 cents and One Dollar. ORCATUR, ILLINOIS WEONEDAY EVENING, JANUARY 16, 1872.

THE State silver meeting in Springfield yesterday was largely attended, and very enthusiastic. Judge Lawrence presided, and a long series of strong resolutions idopted.

THERE was a large fulling off in foreign immigration at the port of New York during the last year. The annual and is dead. report of the commissioners of innaigration shows the arrivals during 1877 to have been 54,586, or 16,729 less than during the year preceding. Of the number, 46,267 were steerage and 8,269 cabin passengers. Germany furnished 17,783 of the emigrants, Ireland 8.221, England 6.552, Sweden 3.710, Italy 2,832, Russia 2,391. Immigration has decreased from 233,418 in 1865. to 54,563 last year.

An Eastern Democratic paper remarks for the consolation and encouragement of the Colorado Democracy :---"Seating Patterson in the Democratic Honse as a Representative of Colorado will cost the Democracy the next state election in Colorado, and will inevitably lose them the electoral vote of Colorado in the presidential election of 1880."

ENGLAND is panicky under the influ enes of the news from the continent. She threatens to assert her rights to

have a hand in determining the final conditions of peace between Russia and Turkey, and is considerably flustrated at the indication that Russia will make an armistice the means of entering directly upon peace negotiations with her adversary. Under the circumstances the English Cabinet is in a highly excited condition, and some overt act of hostility to Russia is deemed not inprobable.

A MEETING of the Executive Committee of the Illinois Press Association was held in Chicago last week, to advise concorning the annual meeting and | hundreds of miles distant. Thus the excursion for 1878. It is proposed to hold the annual meeting somewhere in the southern part of the State, and go by steamer to New Orleans, spending a couple of days in the Crescent City, and then visit Capt. Ends' jetties at the mouth of the river, continuing the voyage by sea rouda to Mobile or Galves ton, and thence by rail through Texas and the Indian territory home.

Tax temperance people of Decatur to enable them (the saloon men) to re-tire from the business. If the people movement has destroyed the domand for intoxicating liquors to such an extent as to render the saloon lausiness unprofitable, the saloon men will get out of it of their own accord. On the other hand, as long as the business is profitable, there will be plonty of men to engage in lit, and buying out the present saloons would only make room for a new crop. -- Bloomington Panta-

NART has been pressed into the serture of a pawn-shop, with Stanley Matthews as keener in the figure of a hard fentured, sardonic rancle." Before him on the counter lies a watch which he is passing over to the pawner, with the depriptive inscription underscuth: "S. Matthews (Rep., Ohio) -Yes, Mr. Clost ed-Holder, you gave me a gold watch and chain, but now I can legally return a silver one!" If Nust will reflect a it is to print the matter as it is prelittle he will perceive that he has thrown a boomerang that flies back and strikes the thrower. Stanley Matthews is supposed to stand for the West in the picture,-that is, the borrowers and the pawner the East,—the lenders Have the money-leaders loaned gold to the people of the West, Mr. Nast ?-Have they given the borrowers a gold watch and chain, Mr. Nast? If they have not, there is no point to your picture; but, as you are an artist, and not a money-lender, you may be excused for not knowing. But the truth of the matter is, the money loaned was neither gold nor silver-it was depreciated, irredeemable paper of various values,-Some of it was worth 50 per cent of its face in coin, and some of it 75 to 90. There was no promise to repay it in gold; no understanding or expectation of the kind. But the gentlenian who loaned this fluctuating, depreciated paper now insist on being repaid in gold alone, and they have been misted by "soft soap" into eariesturing and misrepresenting honest people who resist their Shylack demands. If the watch rablem is to be retained, your Eastern sharps gave to the Western flats pinchbeck watches and brass chains, and now demand gold watches and chains in repayment; and refuse good honest silver wetchen and chains. TOO MUCH TO BELLEVE.

The following, which we find in an exchange, will, if it is true, show, that olomon did not have his wits about him when he said, "there is no new thing under the sun:"

But the most marvelous machine which has been invented for a century is the phonograph, which is a talking machine. But the great wonder is that when one talks into it, it will reproduce not only his identical words and pronunciation, but will also reproduce the tones of his voice; and it will reproduce these words and tones for years and years after the person has spoken

The machine was invented by Thomus A. Edson, of New Jersey, and has been on exhibition in New York in the principal newspaper offices, and had thorough test and examination. The Scientific American is not to be imposed upon. It fought the Keely Motor from the first to the last, declaring it to Mr. Edson's phonograph at once.-For Mr. Edson walked into the office with the little machine, set it down on day?" and to inform the scientific gentleman that "I am a phonograph, and am very well, and come to see you! It chatted quite freely when Mr. Edson turned the crank to make it talk. Of what it talked out at the editor. There was no disputing with this fact. The inventor explained all about how it is operated, and it seems to be a simple machine, easily comprehended, and very

small and unpretending.

The principle upon which it is constructed seems to be that the sound of the voice, by aid of electricity, causes the movement of certain wheels, and these make their impress in paper, or some such substance. As the speaker talks these slips pass through the ma-chine, every word being distinctly impressed upon the soft uniterial. Then these slips can be taken and run thro' the machine again and again, as often as any one wishes, and every time passed through the machine will repeat the exact words which the speaker said at the first, and his tones of voice also.

MR. THEORY'S PURPOSE.

Detroit News lays down the following programme for Mr. Tildea:

I know whereof I am speaking when I say Mr. Tilden is fully resolved to are discussing the propriety of having contest his right to the Presidency beout the saloon men of that city, in order fore the courts. He has never for a moment wayered in that determination. As a preliminary step in that direction of Decatur do this they will do a very be took the eath of office on the fourth tion. Mr. Allen, of Henry, known as foolish thing. When the red-ribbon of March last, and has been swenring the leader of the only opposition which ever since for that matter. Not that he expects to succeed in ousting Hayes from his seat, unless in the mountime such a change should come over the political complexion of things as to render such a result probable. But his object in the main is to reopen the question for discussion at the proper time to have its effect on the next Democratic National Convention. He expeets to present an array of facts to the public that, whether the legal points vice of the goldites. > pared. THE New York Evening Post, in commenting on the discomfiture of the woman suffragists at Washington, says: "When women really wish to vote in this country--that is to say when a majority of that class of women who are influential carnestly desire to vote, weman suffrage will be decreed without the passage of a constitutional amendment on the subject; but so long-as women generally shall continue to be of their present mind, so long as they shall prefer to leave to their husbands, and brothers, and fathers all the disagreeable duties of citizenship, the two houses of Congress will very properly refuse to waste time in listening to harangues on the subject."

The Great Popularity of the "Old Dominion" Buck Gloves and Gauntlets has induced parties, both in Decatur and surrounding towns, to sell inferior gloves, under this name. None are genuine unless stamped "Geo. Oft" on the inside, and to be laid only of Oct. 2-d&wtf Linx & Scapage.

THE Philadelphia Times finds a curious and suggestive illustration of the changes brought by time and the coincidences of history in the fact that Geo. B. McClellan and Geo. H. Pendleton, once Democratic candidates for President and Vice President, should after fourteen years of retirement, return to public life together, the one as a Governor and the other as a Senator. They return to public life with the ex-Confaderates. This is certainly suggestive.

He had been in Texas but short time before he became involved in a quarrel. A duel was the result and Thomas Harley received a wound from which he died soon afterwards.-Col. Harley, the father of the family, was known as an uncommonly passionate man. At one time he became enraged at one of his female slaves, and once sold all of her children to punish her, In her sorrow and anger she cursed her master, telling him that the children of a man so merciless as he would surely come to some bad end. Walter, the son who has just been killed, was commonly considered the best member of

THE PARENT OF INSOMNIA.

The parent of insomnia or wakefulness is in nine cases out of ten a dyspeptic stomach. Good digestion gives sound sleep, indigestion interferes with it. The brain and stomach sympathize. One of the prominent symptoms of a weak state of the gastrle organs is a disturbance of the great nerve entrepot, the brain. Invigorate the stomach, and you restore equilibrium to the great centre. A most reliable medicine for the purpose is Hostetter's Stomach Bitters, which is far preferable to mineral sedatives and powerful narcoties, which, though they may for a time exert a soporitic influence upon the brain, soon cease to act, and invariably injure the tone of the stomach. The Bitters, on the contrary, restore activity to the operations of that all-important organ, and their beneficent influence is reflected in sound sleep, and a tranquil state of the nervous system. Stanley Matthews is supposed to stand for the West in the picture,-that is, the borrowers and the pawner the East,—the lenders Have the money-leaders loaned gold to the people of the West, Mr. Nast ?-Have they given the borrowers a gold watch and chain, Mr. Nast? If they have not, there is no point to your picture; but, as you are an artist, and not a money-lender, you may be excused for not knowing. But the truth of the matter is, the money loaned was neither gold nor silver-it was depreciated, irredeemable paper of various values.-Some of it was worth 50 per cent of its face in coin, and some of it 75 to 90. There was no promise to repay it in gold; no understanding or expectation of the kind. But the gentlenian who loaned this fluctuating, depreciated paper now insist on being repaid in gold slone, and they have been misted by "soft scap" into caricaturing and misenting honest people who resist their Shylack demands. the many notices we have received:

Accidentally Shot.—Yesterday aftermoon, about 4 o'clock, while two sons of Mi. John Young, of Cerro Gordo, were tunning rabbits, the younger, a boy of about 12 years of age, stooped down to look under a crib where they had "treed" a rabbit, and the elder, shout 16 years old, with a shot gun cocked, stood by, prepared to shoot as soon as the rabbit made his appearance. By some means the gun was discharged and its contents passed through the left ankle joint of the small boy, rendering amputation necessary. His foot was removed about ten o'clock; this morning at three o'clock he was doing quite well.

We were surprised and gratified this morning to receive a call from our old friend and former fellow-citizes, J. J.

friend and former fellow-citizen, J. J. Jones, of San Jose, California. He arrived last night, having left home on Thursday morning. He reports all the old Decaturities in San Jose as well and thriving; been for several days seriously ill is imsays they had most delightful weather when he left—everything green and strawherries in abundance. He informs us that while in California his health was excellent, but assoon as he reached the Missouri river his old enemy, the asthma. renewed its attacks upon him, and he is at present auffering considerably. He is enthusiastic in his praises of California, and scems anxious to return.

Polland-he of the late 49-cent store -rushes into print this morning, with two cards, previous to which he rushed into our office to convince us that he had not left town as we had stated. We had hunted for him with a bill and an officer the mixing of it. He bakes bread for for the best part of half a day, but could find neither him nor any vestige of his goods. It seems, however, that our little notice smoked him out. He stormed considerably, but did not settle his bill, promising to call around to-day and pay off the little balance he owes. He has not done so yet, notwithstanding his boast in the San this morning that he had settled all his bills here. We have heard of another bill that he left unsettled, and learn today that he has gone away from the city. His goods were shipped- to Chicago, but not in his name, and if that fact, together with his other mysterious movements, did not give good ground for the notice we tendered him yesterday, it would be difficult to find any. When a man who has been doing business in a place but three months sees fit to ship his goods away in the night, in the name of somebody else, and leaves town without paying all his little bills, it will take something more than a couple of bloviating cards to convince the public that he is as honest as he professes to be.

WE are sorry to say that the copy of two articles intended for this column has been lost. One or these articles was an essay on "Preparation for Class Work," which we should have been very glad to lay before our readers; the other was an interesting communication on the occultation of Venus. The copy was put in the hands of the printer, but disappeared in some unaccountable manner. We beg pardon of the writers.

STATE COMPETITIVE EXAMINATION We wish again to call attention to the examinations soon to be held under the auspices of the State Teachers' Association. As will be seen, from the circular sent out by the committee provision is made for all grades of the public schools. In a similar examination held last year the Decatur public schools participated, and feel that they were benefitted by so doing It is hoped that this year the county schools will be represented as well. Let us reap all the advantages we may from such a comparison of work. WE clip from the Chicago Journal the

following sketch of the Illinois State Teachers' Association, the last session of which was recently held at Springfield, and which was attended by altogether too small a number of the teachers of the county: Bketch of the History of the Illinois State Teachers' Association.

The Illinois State Teachers' Association

The Himois Blate Teachers Association has been a powerful agency in developing educational progress. In 1858 an organization was formed, of which Rev. H. W. Goodfellow was elected President. At that time there was no separate department of education in the State executive administration, the Societies of State. ment of education in the State executive administration, the Socretary of State having charge of the business. Minim Edwards, then Secretary of State, jand, by appointment, first Superintendent of Public Instruction, took an active interest in the advanced movement. It was his father who was Territorial Governor of Illinois, and later Governor of the State. In 1854, W. H. Powell, the first elected State Superintendent, was elected Presifather who was Territorial Governor of Illinois, and later Governor of the State. In 1854, W. H. Powell, the first elected State Superintendent, was elected President of the association, by which time an educational journal was started, and the Normal School was under discussion.—
C. E. Hovey, elected in 1855, was at the head of the Normal School movement, and of the university, till he took the field in the war. He is now a member of the Washington (D. C.) Bourd of Education. Then followed, as President, Simeon Wright, a man more noted for indominable perseverance, and for hard work, and for power to persuade, than for scholar ship. He died in 1876. Then came B. G. Roots, prominent for the pust generation in all that benefits "Egypt." Then, in succession, W. H. Huskell, J. V. N. Standish, of Lombard University, Galesburg; W. H. Wolls, seven years Superintendent of Chicago schools; W. M. Baker, of ripe culture, now some time dead, Newton Bateman, fourteen years State Superintendent, now President of Knox College: Richard Edwards, late President of the Normal University; S. M. Etter, present State Superintendent, S. H. White, of the Peoria Normal School; A. M. Brooks, Superintendent, Springfield, Dr. J. M. Gregory, Regent of the Industrial University; George Howland, who presides over the Chicago High School; Thomas H. Clatk, of the Aurora High School; James H. Blodgett, of the West Hockford Schools; J. B. Roberts, now over the Indianapolis High School; J. L. Pickard, late Chicago Superintendent; W. B. Powell, Aurora Superintendent; John Hull, Professor Southern Normal; C. E. Hewitt, President Normal University, and Leslie Hewis, of Hyde Park.

The list is a remarkable one—remarkable one—

Leslie Lewis, of Hyde Park.

The list is a remarkable one—remarkable as containing so many strong names; remarkable for the small number of deaths that have broken it; remarkable for the number of men whose service even in Illinois reaches back of the organization of the association.

The overalization of a State department

of the association.

The organization of a State department of education; the building up of professional spirit through an educational journal; the development of free schools; the support of a State agent to educate the public on school organization; an agency which, under Simoon Wright, carried the school attendance of the State to the largest per cear. of the population ever reached; the Normal Schools; the establishment of teaching on a professional basis were each chiefly or wholly the work of this association. For a few years after its organization its gatherings were enthusithis association. For row years after the organization its gatherings were enthusiastic mass meetings, developing a zeal telt in the remotest districts. The multiplicity of local gatherings has somewhat diminished the miscellaneous attendance, but an earnest body of men and women can be found still at the winter holidays. sending forth an impression upon the opinions of the State as expressed in local action and in State legislation.

Macon County Teachers' Association. The Macon County Teachers Association met at County Superintendent's office January 5, 1878.

Called to order by President Trainer. After calling the roll and reading minutes of previous meeting, I. E. Brown gave an explanation of straight line analysis, showing its application in simple and compound proportion; also in partnership. His explanation was clear, and done in a masterly style. He occupied the time until moon.

NO single disease has entailed more suffering of it hascened the breaking up of the constitution dian Catarrit. The sense of small, of faste, of sight, of hearing, the human yoles, the mind, one or more and sometimes all yield to its destructive influence. The polion it distributes throughout the system stacks every vital force, and breaks up the most robust of constitutions. Ignored because but fittle understood by most physicians, impotently assalled by quacks and charlatans, those setfecting from the vacuality of the state of the grave. It is time, then, that the popular treatment of this terrible disease by remedies within the reach of all passed into hands at once competent and trustworthy. AMUSEMENTS. - On Tuesday evening, Jan. 26th; comes the Lottic Company, in Uncle Tom's Cablu; and on the 26th inst. J. K. Emmett, the great Dutch comediun, in his play of Fritz. Mr. Emmett has the reputation of being one of the greatest comedians of the day, and his appearance

here will furnish our people a rich treat.

Accidentally Shot.—Yesterday afternoon, about 4 o'clock, while two sons of Mi. John Young, of Cerro Gordo, were funding rabbits, the younger, a boy of about 12 years of age, stooped down to hook under a crib where they had "treed" a rabbit, and the elder, about 16 years old, with a shot gun cocked, stood by, prepared to shoot as soon as the rabbit made his appearance. By some means the gun was discharged and its contents passed through the left ankle joint of the small boy, rendering amputation necessary. His foot was removed about ten o'clock; this morning at three o'clock he was doing quite well.

We were surprised and gratified this morning to receive a call from our old friend and former fellow-citizes, J. J.

friend and former fellow-citizen, J. J Jones, of San Jose, California. He arrived last alght, having left home on Thursday morning. He reports all the old Desays they had most delightful weather herries in abundance. He informs us that while in California his health was execilent, but assoon as he reached the Missouri river his old enemy, the asthma, renewed its attacks upon him, and he is at present suffering considerably. He is enthusiastic in his proises of California, and arems anxious to return.

Polland-he of the late 99-cent store -rushes into print this morning, with two cards, previous to which he rushed into our office to convince us that he had not left town as we had stated. We had hunted for him with a bill and an officer for the best part of half a day, but could find neither him nor any vestige of his goods. It seems, however, that our little notice smoked him out. He stormed considerably, but dld not settle his bill, promising to call around to-day and pay off the little balance he owes. He has not done so yet, notwithstanding his boast in the Sun this morning that he had settled all his bills here. We have heard of another bill that he left unsettled, and learn today that he has gone away from the city. His goods were shipped to Chicago, but not in his name, and if that fact, together with his other mysterious movements, did net give good ground for the notice we tendered him yesterday, it would be difficult to find any. When a man who has been doing business in a place but three months sees fit to ship his goods away in the night, in the name of somebody else, little bills, it will take something more than a couple of bloviating cards to convince the public that he is as honest as he professes to be.

One or these articles was an essay on "Preparation for Class Work," which we should have been very glad to lay before our readers; the other was an interesting communication on the occultation of Venus. The copy was put in the hands of the printer, but disappeared in some unaccountable manner. We beg nardon of the writers.

STATE COMPETITIVE EXAMINATION We wish again to call attention to the examinations soon to be held under the auspices of the State Teachers' Association. As will be seen, from the circular sent out by the committee, provision is made for all grades of the public schools. In a similar examination held last year the Decatur public schools participated, and feel that they were benefitted by so doing It is hoped that this year the county schools will be represented as well. Let us reap all the advantages we may from such a comparison of work.

A SOCIABLE TIME.—The Good Templars' hall was so densely packed inst evening that moving about was somewhat difficult. As a sociable the occasion was a grand success, and all in attendance enjoyed the evening in a high degree. The exercises were slightly varied by a recitation from Mes. Cain, in her usual pleasant style, and several beautiful songs were well sung. At a seasonable hour the party separated, with the feeling that
